## **Introduction to our Premium Glass & Mirror Collection**

At Globaltopz UK, we offer bespoke premium kitchen glass worktops and splashbacks, combining style and functionality. Glass splashbacks are a modern, low-maintenance solution, available in backpainted glass, standard mirrors, and antique mirrors, perfect for any kitchen design.

Our backpainted glass comes in a wide range of colours. Alongside our standard collection, we can match any shade from BS and RAL colour charts. Whether you prefer classic neutrals, bold tones, or metallic and matte finishes, we provide customised solutions tailored to your kitchen. Glitter-infused and textured options add further personalisation.

For a timeless aesthetic, we offer standard and antique mirrors. Antique finishes, including aged, distressed, and smoked effects, bring character and depth. These can be used as splashbacks, feature walls, or statement pieces, enhancing light and space.

Our website showcases only a fraction of our plain, printed, and textured glass options. We provide templating and installation, ensuring a seamless fit with your kitchen worktops, reducing costs and lead times. With our one-stop service, we deliver premium quality, customisation, and expert craftsmanship.
